# CREATE & BUILD WOODEN KITS

## Sky Surfer AIRPLANE LAUNCHER

## THE ULTIMATE PAPER - AND MORE - AIRPLANE KIT

A DIY STEM kit to launch you into the world of flight!

The first elastic-powered airplane launcher kit allowing kids of all ages to design, make and scientifically test their designs. Explore the ways that material, wing design, launch angle, and force, affect the flight of planes!

### SKY SURFER AIRPLANE LAUNCHER

644216855308 • £16.99 INC. VAT

APPROX. 410 MM ASSEMBLED

GMSTA-31672

AGE 14+

- Easy to make in about 30 minutes - but not too easy, life needs challenges!
- Adjustable thruster will launch planes from 10 to over 50 feet - or more!
- Comprehensive 20 page booklet with plane designs, ideas, paper and card stock.

Launches planes in a repeatable and consistent way...  
...perfect for budding engineers (and real ones) who love to fly airplanes!

# CREATE & BUILD WOODEN KITS

## BATTERING RAM

*A working  
re-creation  
of a Roman  
Battering Ram*

The Battering Ram was a formidable weapon, used to knock down walls and splinter the gates of fortresses, castles and villages throughout Europe and the Middle East for over 1,000 years.

Originally invented by the ancient Assyrians around 900 years BCE it was widely used by the Greeks and Romans during sieges from Ancient to Medieval Times. Now you can make your own authentic Battering Ram, to lay siege to small castles around the house, and remind you of a day when you could strike fear into the heart of entire villages with a swinging log in a moving house!

### BATTERING RAM

644216855605 • £20.00 INC. VAT

APPROX 190 X 300 MM ASSEMBLED

GMSTA-32044

AGE 8+

\*Figures not included

- Easy to make in about an hour or two
- Natural untreated wood from sustainable forests
- All pieces pre-cut and ready to go
- Parts are pegged for extra strength
- Great instructions!

# CREATE & BUILD WOODEN KITS

Channel your inner Leonardo and make a working model of one of his lost 15<sup>th</sup> century designs!

This incredible bicycle image was discovered hidden in the *Codex Atlanticus* folio of Leonardo's drawings and writings. Regarded by scholars as a drawing by one of his students, Salai, it remains a mystery how over 300 years before anyone was even thinking of a bicycle, Leonardo had come up with a design to move while balanced on two wheels.

# Leonardo da Vinci Bicycle
