HELLO FROM SAN FRANCISCO!

We work with only durable, eco-friendly materials. Our vibrant Risograph cards are printed on 100% post-consumer waste recycled paper with veggie-inks. We make our hypoallergenic jewelry with real gold and brass for long-lasting enjoyment. Our NEW reusable Art Sacks™ are made from recycled plastic bottles.

As the designer of all the stuff here my sincerest gratitude to you all for letting me selfishly design things I wanted for myself for 16 years! All-around high fives to our stellar and talented staff that really makes Yellow Owl tick. We are just getting started!

- Christine Schmidt (Big Cheese)

ART SACKS™

Simultaneously schlep your stuff, support artists, and hug a tree with our rad new eco-friendly Art Sacks™! We worked with our favorite artists to create this unique line of reusable bags. Each bag holds up to 50 lbs and folds into an interior pocket for easy grab-and-go.

Each bag is 18 x 19 inches (46 cm x 48 cm) with a 10-inch (25 cm) handle and folds into a pouch the size of 4.5 x 5.75 inches (12 x 15 cm). The durable fabric is 100% recycled polyester (rPET), made from plastic bottles, and is STANDARD 100 by OEKO-TEX® certified. Each Art Sack™ comes with a small booklet about the artist.

COMBED COTTON CREW SOCKS

The design of this sock range was a selfish pursuit. We just made the socks we want for our own feet chilled by the San Francisco fog. We tracked down the softest cotton with long combed fibers for a luxuriously hand feel. We reinforced the toe, heel and cuff for durability. Most importantly we make them following the highest ethical, labor and environmental standards.

Fabric content varies by style and contains a mixture of cotton, nylon and spandex. Each pair is packed folded with a brass eyelet.

Women's size fits most: 5-10 US. 7 inch leg x 7 inch foot x 3/4 inch cuff (18 x 18 x 2 cm).

Men's size fits most: 7-12 US. 8.5 inch leg x 8.5 inch foot x 2 inch cuff (21.5 x 21.5 x 5 cm).

PENDANTS

Each refined pendant, gilded in luminous 22-karat gold is adorned with the ancient metal-working technique called cloisonné. Tiny crevices etched into the surface of the pendant, called "cloisons", are expertly filled with different colors of richly pigmented paste. Fire from a kiln transforms the loose mixtures into deep hues of hard enamel. The surface is then filed, sanded, and buffed to exquisite shine.

Each pendant presented on a soldered 18-karat gold-dipped 20 inch chain (50.8 cm) with clasp. Individually presented in our unique glass vial with cork packaging.
